

Nathalie has been giving me French conversation lessons for nearly a year, and we have come a long way. The classes are fun and informative.

Nathalie is a very good teacher and instils lots of confidence. We are very lucky in that when I am in France the lessons are face to face and when I am in the UK lessons are via "Teams", which works very well and maintains good continuity. Classes are well structured with a good combination of conversation, working on prepared text and translating articles from websites and newspapers. The subjects are always interesting, and we often run out of time because we talk so much. I can heartily recommend Nathalie as a French language teacher.
